

OneWorld

— creating perspectives

Visualization

Devised as a sophisticated design object for public spaces (as lobby and lounge) *OneWorld* enables a global player to visualize its profile and worldwide engagement effectively.

The appearance being prestigious *OneWorld* spotlights the world and thanks to the rotation, new perspectives are continuously opened up.

(E)motions

Characterized by the transparent appearance and the dynamics resulting from the uniform movement, *OneWorld* detaches itself from a dominating object a room and fills it with a pleasant atmosphere of peace and continuity.

In this new interpretation, *OneWorld* unites modern functionality with a far-reaching symbolism, embodies global consciousness and gives the upscale atmosphere a cosmopolitan note.

State-of-the-Art

OneWorld combines timeless design with innovative, patented technology in an unmistakable way.

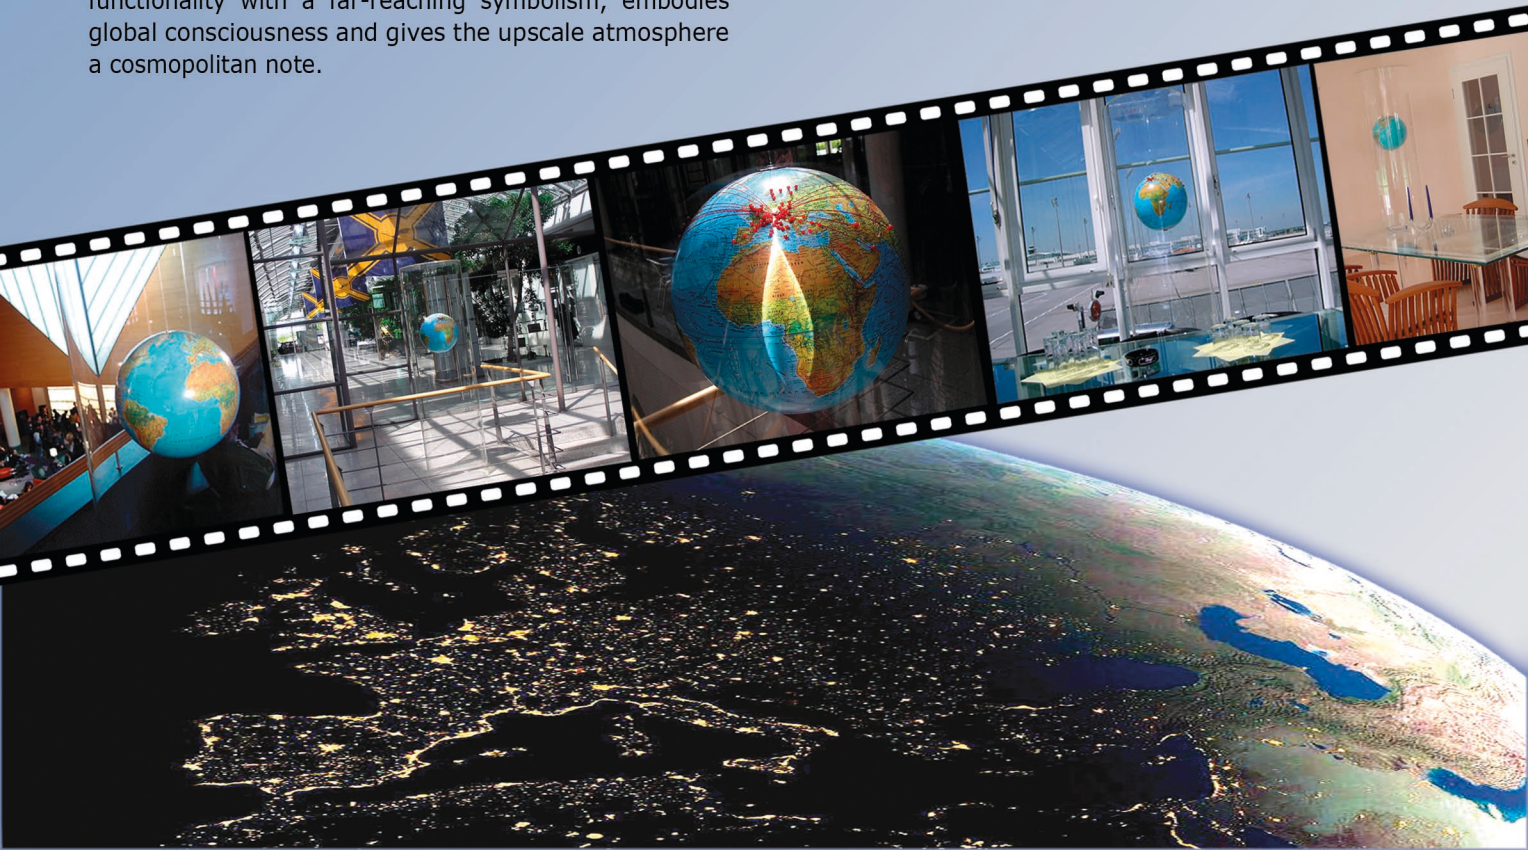

As an eye-catcher with visualized informations to the own company *OneWorld* is predestined for

- lobby, lounge and foyer
- conference room and library
- exhibitions and fairs

World in Motion

The optically levitating globe is equipped with an integrated drive of unprecedented efficiency and turns visibly with half a revolution per minute.

Far more than one million times over a period of about 3 years be achieved without changing batteries.

OneWorld

Globe (new model)

- Nobel hand-laminated design without visible equator ring, varnished, 40 cm diameter (the photos still show an earlier model)
- Rotations per minute: ~ 0.5 rpm
- Rotations without changing battery: more than 1 million
- Lifespan of one battery: ~ 3 years
- Power supply: 5 batteries (baby)
- Automatic switch-off (switches off at dark)

Column

- High quality acrylic glass (cast version)
- Height 222 cm, diameter 65 cm, wall thickness 6 mm
- Cover and base: acrylic glass (cast version)
- Total weight: ~ 40 kg

Individualisation

- Visualization of your worldwide locations, global trade relations or international flight connections
- Lighting by means of special spotlights
- Additionally presentation of company-related facts on the inside of the column in a striking way

Other

- Batteries can easily be changed

GlobeMaster

Especially developed for use outdoors like atriums, inside courtyards, entrances, patios and parks we offer this weatherproof design with strengthened acrylic glass parts, 100% UV protection, condensation prevention and enlarged base for simply screwing it into a suitable subsurface.
